Regarding: Evan Wagner, Telecommunications Consultant

---

To Evan Wagner Hiring Manager,

Comcast Employed Evan Wagner full time as a Geographical Information Systems, GIS, Subject Matter Expert for Hybrid Fiber, HFC, Coax system documentation in one National GIS platform. Comcast had multiple non-standard GIS systems within multiple divisions. Evan played a major role in setting National standards and to migrate to one National GIS system with full visibility to Corporate Leadership.

Evan is an intelligent and motivated leader, has 30 years of experience with HFC engineering and documenting them in GIS systems. With setting National GIS standards and working with multiple divisions, all non-standard GIS systems were converted to one standard GIS platform for Comcast Corporate Senior Leadership with national standards. Managed Multiple divisions and business partners to complete the migration project on time for Comcast Corporate.

As part of Evan's former responsibilities, Evan also supported new technologies for HFC to be incorporated into the new National GIS platform to be documented. Also, provided GIS intelligence to Comcast Senior leadership to be able to assess current HFC systems and make financial decisions deploying new technologies, provided electronic system maps to plant maintenance, and manage High speed data capacity to support Customer data and video consumption needs.

If you would like additional information about Evan Wagner, please feel free to contact me.

Sincerely,

William J Polis  
Senior Manager, Access Engineering
